

It is important that the FCC realize the importance of the Indiana State Law that prohibits unwanted telemarketing calls. I used to receive several calls per night (all unsolicited) from telemarketers. Since my participation in the Indiana "No Call" list, things have gotten MUCH better. I no longer receive unwanted telemarketing calls and my wife and I can actually enjoy our evenings (and dinner) in peace.

Please remember that the citizens have CHOSEN to have a "No Call" list through the election of our public officials. Do not pre-empt our states' rights.

Thank you for your consideration.

Ken Potchen
